

Introducing The ZEEL™ Frame

A minimal design with endless opportunities.

- **Zeel** is a sleek, minimal frame designed to be stained or painted, seamlessly blending into your door, allowing the doorglass to take center stage.
- The **clean, low-profile** look offers an alternative to flush glazed doors that provides the benefit of a frame system with the style homeowners desire.
- Never worry about extreme environments with **FiberMate Plus™**. Our strongest material withstands high temperatures and direct sunlight even when using dark, on-trend paint colors.
- Reduce service calls and warranty issues with **Resolve® Sealant**. Zeel is immune to squeeze out and Resolve doesn't degrade over time.
- **Zeel** eliminates the need for screws and cumbersome screw hole covers with an innovative clip system, allowing each frame to sit flush to the door.
- **Zeel** white frames are designed to be used with Design-Pro, Smooth-Pro and Steel Doors and Sidelights.
